**Summary of reasons  
for classification:**

The publication entitled *Swallow My Squirt* is classified as:  
Objectionable.

The publication makes a strong and deliberate spectacle of women urinating and men drinking urine. Given that this behaviour is presented within a publication designed for the sexual arousal of adults, the publication clearly validates this conduct as being arousing and part of normal sexual activity. Consequently the publication promotes and supports the use of urine in association with sexual conduct.

The Classification Office has considered the effects of the New Zealand Bill of Rights Act 1990 on the application of the classification criteria. The classification of this publication interferes with the freedom of expression, but this is an outcome that is consistent with Parliament's intention that publications falling under s3(2) of the Films, Videos, and Publications Classification Act are deemed to be objectionable.
